Inclusive Technology of Washington works to close the digital divide and support self-advocacy by providing technology education and resources to underserved communities. Our mission centers on advancing equity in technology for individuals who are neurodiverse, those living in rural populations, girls, minorities, and other socioeconomically disadvantaged individuals. We empower learners with the digital tools and skills they need to thrive in the modern world.

Community Advocacy Awards

Earn a badge and have the option to work with Inclusive Technology to complete a take action project to earn your Community Advocacy Award and complete the prerequisite for your Bronze, Silver or Gold Award!

Junior Workshops

Half Day Programs

~4 hrs of badge instruction + optional 4–8 hr Take Action
\$95 per Girl Scout

- Earn Coding for Good's **Coding Basics** and **App Development** badges. For your Take Action, design a game to help teach younger students.
- Earn the **Digital Photography** badge, then serve as a photojournalist for one of our community classes or help create graphics for our programs as your Take Action project.

A \$20 refund is offered to Girl Scouts who decide to skip the take action or work with another organization

Full Day Program

~8 hrs of badge instruction + optional 4–8 hr Take Action
\$155 per Girl Scout

- Earn **Playing the Past** and **Entertainment Technology** badges as you create and film a short story featuring a historical figure. For your Take Action, continue by making videos that support our mission.

A \$20 refund is offered to Girl Scouts who decide to skip the take action or work with another organization
