

Inclusive EmployABILITY

Learn and develop skills in classes that will help move you towards a career path!

LaunchPad Program

Learn skills that help you become more employable! Top off your learning with either a “simulated project” of your own choosing (“Track A”), or by volunteering with Inclusive Technology of Washington to gain “real life” experiences (“Track B”)!

Using AI to Assist with Executive Functioning for School or Work

Learn how to personalize your AI experience to meet your needs as you navigate through school or work challenges.

Community Advocacy and Leadership Development

Learn how to mentor individuals who are neurodiverse, and then assist with leading them. Also assist our non-profit with administrative projects to further enhance your leadership skills.

Funding options for these classes include private pay, DDA Life Skills, and (once approved and where qualified) DVR 1:1 Independent Living funds. In addition, the Community Advocacy option is available through Girl Scouts, and the Leadership Development option is available individually or through schools who offer this program in their curriculum or after school coursework. Scholarships may be available for those who qualify.
